Thanks Byron.

Richard great you are there. Scott and I worked with you when you were on the hill. Let me know which day/time works best for you. Nancy, we would love to have you sit in as well since you worked on this previously.

Look forward to seeing you again.

Ed

Hi Ed – Richard Yamada has joined EPA as the political deputy in ORD overseeing the IRIS program. I have copied him on this message.

Hope your Monday is going great.

Checking back to see if we can get on your calendar for next week. Let me know what works best for you so I can finalize their travel arrangements. The CEO is flying from Japan specifically for this meeting and is asking when he can book his return flight.

Thanks to both of you.

Ed

Subject: Meeting Request: EPA Technical Correction of IRIS Quantitative Exposure Risk Value for Chloroprene

Hey Byron and Nancy,

I hope you are both well. I am following up on Segal's email attached below to see if we can schedule a meeting with both of you either June 27 or 28th. The CEO of Denka is flying in from Japan for this meeting and the folks from Louisiana will be here during that time as well. We are wide open either of those days to meet. In effort to get the discussion rolling, let me suggest June 27th at 1:00 or 2:00.

The Denka team wanted to meet with both of you as we are about to file the Request for Correction (RFC) for this issue. We want to ensure that as EPA looks in to this issue senior management is fully briefed and afforded the opportunity to ask any questions of or experts.

Please let me know if these times work and if not please suggest a new time and I am certain we can accommodate.

Thanks for all you do and we look forward to seeing you both.

Ed

Byron – attached for your review is memo prepared initially for transition regarding a mistaken IRS value that is being used inappropriately as a default value for regulation/enforcement. If uncorrected, it could endanger the last neoprene production facility in the US (LaPlace, LA)!

The owner is Denka Performance Elastomer, LLC, or DPE, who purchased the plant from DuPont.

Ryan initially directed us to Nancy – who certainly knows IRIS well – and she thoughtfully reminded us that this is an ORD issue. But what is called for here is Request for Correction (RFC) to the IRIS listing, now out of date and inaccurate. Our current plan is to file the RFC the week of June 11.

Request: can you (and Nancy perhaps) sit down with the CEO of DPE, the plant manager from LaPlace, Ed Krenik, and me? The date would be June 9. Would that work? Thanks, ss/
